457(b) Deferred Compensation Plan

457(b) Deferred Compensation plans are exclusive to local governments. They are termed "deferred compensation" plans because they offer you the opportunity to "defer" or postpone some of your current compensation and receive it, with earnings, in the future.

Participating in your GEBCorp 457(b) Deferred Compensation Plan is one of the best ways to build assets for use during your retirement years. Because the earnings grow tax-deferred, they increase in value much faster than if you were required to pay federal and state income taxes each year on those investments.

GEBCorp has recently changed its investment platform to provide you with superior choices in ways to save for retirement. We will be happy to meet with you to assist in deciding what works best for you in saving for retirement.

457(b) Deferred Compensation Plan Highlights

- 100% immediate account ownership
- Tax-deferred investment returns
- Target Date and Target Risk Options help you decide what savings method is best for you
- Transferable to other plans after termination
- Benefits in addition to Social Security

GEBCorp Highlights

- The GEBCorp Client Services department is available to assist you
- One on One time with your Representative
- Easy access to your account via website and voice response unit
- You choose your investment elections during enrollment and can change them at any time
- Quarterly statements
